PRELIMINARY AMENDMENT

Sir:

This paper is being filed with a continuation of US Patent Application No. 09/135,229. A marked-up copy of the specification accompanies this paper, and shows the differences between the clean copy of the specification and the parent application. The specification has been amended to include a cross-reference to the parent application, to remove underlining of the section headings and the example headings, and to make minor changes to the claims.

No new matter is added by this amendment.

The Director of the US Patent and Trademark Office is authorized to charge any deficiency in the fee associated with the filing of this paper to deposit account 08-3040.

Respectfully submitted,
HOWSON AND HOWSON
